

# How to Draw a Pinecone

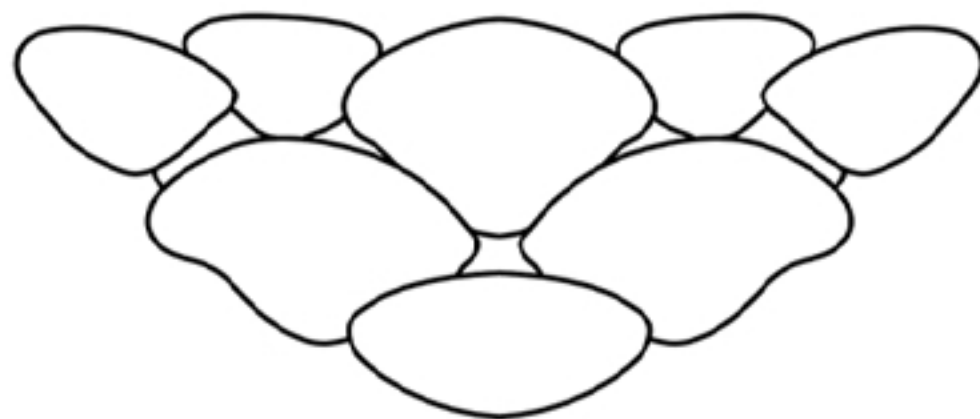

Follow the steps below to learn how to draw a pinecone! While the pinecone below is symmetrical, nature is rarely perfect and you can have fun with the shapes in your pinecone!

Use your pinecone in a collage with other drawings, things you find outside, or materials from around the house!

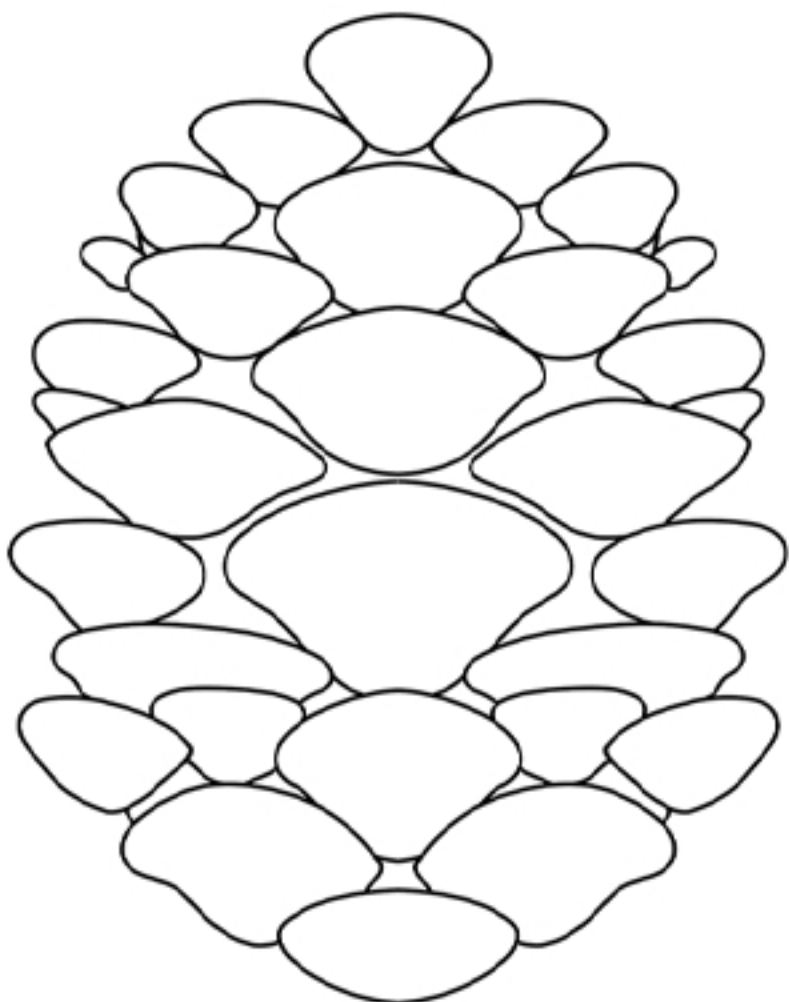

1. Start with a central scale.

2. Start building up scales on both sides. Try not to make the scales perfect circles.

3. Finish your layers and come to a small point at the top.

4. Add shading.
